PVC SERIES

Our Commercial range of umbrellas have a striking streamlined European style and are designed for permanent outdoor applications. They are engineer certified to 112 kph open or 148 kph when opened. The 90mm diameter aluminium pole extrusion ranges from 3mm to 10mm thick to ensure strength and safety. The ribs are a hefty 45mm x 60mm and are 4mm thick. The canopy is made from a heavy duty 800 gsm PVC with a lifespan of more than 10 years.

Printing

Full colour

Large format digital printing refers to method of printing from a digital based image directly to the PVC marquee material. Once the print has dried a hot lacquer is applied to the print surface to seal the print to avoid scratches.

Specifications

- Large format digital printing
- Heat welded seams
- Hot lacquer
- Print finish glossy

Features

The PVC material is long wearing ultra voliet light resistant. A hot lacquer is applied to the printed surface to prevent wear, tear and scatches to the printed surface. All seams and heat welded.

Use

Ideal for outdoor extended use

Ground Fixing

Base included

Cast Steel Base - 440mm diameter

Included for all sizes
