Spanish Recasens - Macaw

CANTILEVER
UMBRELLA RANGE

Cantilever Umbrellas are the perfect outdoor shade solution when you need to “move your shade.” Cantilever umbrellas have a unique function that normal umbrellas lack. The cantilever umbrella is designed with a side-placed support frame which counter balances the canopy. The side mounted pole, which is fixed onto a bearing base plate, allows the canopy to swing fully through a 360 degree rotation.

The cantilever umbrella has been engineered for strength and long term durability.

Printing

UV Printing

UV printing is a form of digital printing that uses ultra-violet lights to dry or cure ink as it is printed. As the printer distributes ink on the surface of the umbrella fabric, specially designed UV lights follow close behind, "curing" or "drying" the ink instantly.

The benefits of UV printing are that it is very resistant to fading. With UV printing there is also no restrictions to the number of colours or logos on the design. UV printing is done on our heavy duty 900D PU Coated Polyester Fabric.

Screen Printing

Screen Printing is the process whereby ink is forced onto the fabric through a mesh screen. Screen printing is ideal for simple designs that are produced in higher quantities.

Ground Fixings

Ground Mount Plate

Steel Plate: 260mm x 260mm x 12mm
Weight: 10kg aprox.
Screw sets: 4 (attach umbrella to base)
Concrete Bolts: 4 (permanet instalation)
Option available for all umbrella sizes

Cantilever Weight Base

Steel Square Frame Holds 16 x Marble Weight Plates (16kg ea) Total weight 280kgs
Available for all sizes

Protective Cover

Covers over pole & umbrella fabric
White Polyester Fabric
Zip to close
Included with purchase

Product Features

Rotation 360°

The side mounted pole, which is fixed onto a bearing base plate, allows the canopy to swing fully through a 360 degree rotation. This feature is standard for all cantilever sizes and shapes.

35° Angled Tilt

The Cantilever range of umbrella are designed to block out the sun from all angles. These umbrellas feature a 35 degree tilt from the mail pole.
