SPANISH SERIES

The Spanish 100 Series is a commercial grade umbrella designed from the ground up, literally. Starting with its unique 90 degree hinged base plate. This series is a large and heavy structure; however, due to this innovative hinged base design, umbrella installation is a breeze. The 100mm diameter pole offers exceptional strength and is visually stunning. The 100 Series is available in Recasens fabric, a 130 year established company that designs, engineers and produces some of the highest quality outdoor textiles internationally available. Custom printing is also available to print logos and restaurant and resorts names.

Fabric Colours

Spanish Recasens 100 & 200 Series

Extreme Marquees imports the highest quality fabric from the Recasens brand located in Spain. The fabric is a high-performance solution-dyed and fade resistant canvas that has been optimized for high tensile and tear strength. The Recasens brand has been manufacturing high quality fabrics in Spain since 1886.

Frame Colour

Printing

UV Printing

UV printing is a form of digital printing that uses ultra-violet lights to dry or cure ink as it is printed. As the printer distributes ink on the surface of the marquee fabric, specially designed UV lights follow close behind, “curing” or “drying” the ink instantly.

The benefits of UV printing are that it is very resistant to fading. With UV printing there is also no restrictions to the number of colours or logos on the design. UV printing is done on our heavy duty 900D PU Coated Polyester Fabric.

Screen Printing

Screen Printing is the process whereby ink is forced onto the fabric through a mesh screen. Screen printing is ideal for simple designs that are produced in higher quantities.

Ground Fixing

350mm Base Plate

Hindged Steel Base Plate
Bottom Plate: 350mm x 350mm x 10mm
Hinge Plate: 190mm x 190mm x 355mm
Weight: 10kg aprox.
Screw sets: 4 (attach umbrella to base)
Concrete Bolts: 8 (permanet instalation)
Included for all umbrella sizes

Instalation

The base plate comes separated from the umbrella pole. Base is attached to the umbrella with 4 screws and washers. There are 8 concrete bolts to attach the base plate permenetly a concrete slab.
