200

SPANISH SERIES

The Spanish 200 is a technically professionally engineered outdoor umbrella shade solution. The high-quality imported fabric canopy is incorporated into one of the strongest aluminium umbrella frames on the market. The pole is designed to provide a reliably stable platform on which the canopy will sit securely for many years. Built to last and maintain a level of attractive appearance expected from a shade structure of this class, the structure is complemented by the addition of imported Spanish Recasens fabric available in 20 colours. Custom branding is offered for logos and company names.

Fabric Colours

Spanish Recasens 100 & 200 Series

Extreme Marquees imports the highest quality fabric from the Recasens brand located in Spain. The fabric is a high-performance solution-dyed and fade resistant canvas that has been optimized for high tensile and tear strength. The Recasens brand has been manufacturing high quality fabrics in Spain since 1886.

Frame Colour

Printing

UV Printing

UV printing is a form of digital printing that uses ultra-violet lights to dry or cure ink as it is printed. As the printer distributes ink on the surface of the marquee fabric, specially designed UV lights follow close behind, “curing” or “drying” the ink instantly.

The benefits of UV printing are that it is very resistant to fading. With UV printing there is also no restrictions to the number of colours or logos on the design. UV printing is done on our heavy duty 900D PU Coated Polyester Fabric.

Screen Printing

Screen Printing is the process whereby ink is forced onto the fabric through a mesh screen. Screen printing is ideal for simple designs that are produced in higher quantities.

350mm Base Plate Ground Fixing
3x3m, 4x4m & 4m diameter

Hindged Steel Base Plate
Bottom Plate: 350mm x 350mm x 10mm
Hinge Plate: 190mm x 190mm x 355mm
Weight: 10kg aprox.
Screw sets: 4 (attach umbrella to base)
Concrete Bolts: 8 (permanet instalation)

Instalation

The base plate comes separated from the umbrella pole. Base is attached to the umbrella with 4 screws and washers. There are 8 concrete bolts to attach the base plate permanetly a concrete slab.

Concrete Bolt
10mm x 80mm
Bolt Hole: 15mm

Screw
8mm x 20mm
Screw Hole: 10mm

600mm Base Plate Ground Fixing
4x5m, 5x5m, 5m diameter & 6m diameter

Hindged Steel Base Plate
Bottom Plate: 600mm x 600mm x 10mm
Hinge Plate: 300mm x 300mm x 355mm
Weight: 20kg aprox.
Screw sets: 4 (attach umbrella to base)
Concrete Bolts: 8 (permanet instalation)

Instalation

The base plate comes separated from the umbrella pole. Base is attached to the umbrella with 4 screws and washers. There are 8 concrete bolts to attach the base plate permanetly a concrete slab.

Concrete Bolt
10mm x 80mm
Bolt Hole: 15mm

Screw
8mm x 20mm
Screw Hole: 10mm
